

## BENEFIT-COST ANALYSIS TOOLKIT V5.1 SYSTEM REQUIREMENTS

You need to have *full local administrative rights* on the computer on which you will install the software, or have someone who has adequate rights perform the installation for you. Additionally, manually perform a Microsoft (MS) Windows update to ensure that you have latest service packs and security patches prior to performing the installation.

The following are the minimum system requirements to run the BCA software successfully:

### Processor

32-Bit Systems: 1-Gigahertz (GHz) or faster processor recommended.

64-Bit Systems: 2-GHz or faster processor recommended.

### Framework

If the following items are not already installed, the BCA installation program will attempt to install them.

Microsoft .NET Framework 2.0 and 3.5

SQL Server Express 2008

### Operating Systems

Windows XP with Service Pack 2 or later

Vista (32-bit or 64-bit) with Service Pack 2 or later

Windows 7 (32-bit or 64-bit) with Service Pack 1 or later

Windows 8 with Service Pack 1 or later

Windows 8.1

### Memory

1 gigabyte (GB) minimum; 2 or more GBs recommended.

### Hard Disk

Approximately 2 GB of available hard-disk space for the recommended installation.

### Display

Super VGA (1,024x768 pixels) or higher-resolution video adapter and monitor.

### Other Requirements

1. Microsoft Internet Explorer 6.0 Service Pack 1 or later.
2. PDF reader, such as Adobe Reader 7.0 or later.
3. An unzip utility.
